

Sargent Roof Repair Project

The Sargent family is feeling overwhelmed with gratitude and relief thanks to Habitat for Humanity of Wood County's home repair program. The roof of the family's home was 22 years old and in need of repair. Habitat was able to help with a new roof.

According to the homeowner, "it was a matter of time before a storm or windy day took off a piece of the roof." The condition of the roof and its potential impact on the health and safety of those living inside was a constant worry for the family. After realizing that paying for the roof repair on their own was not going to be possible, the family reached out to Habitat for help.

Thanks to a grant from the United Way of Greater Toledo and an existing partnership with GAF the roof has been repaired. "The impact of a roof repair is like an immense weight of anxiety being lifted off of a homeowner's shoulders and replaced with peace of mind" says Mark Ohashi, Habitat's Executive Director. Tonight another family will sleep peacefully knowing that their new roof will safely house three generations of the family living in the home for years to come.

About Habitat for Humanity of Wood County Ohio— We partner with individuals and families to help them obtain decent and affordable housing. Habitat homeowners help build their own homes alongside volunteers and pay an affordable mortgage. To date Habitat for Humanity of Wood County has built 48 homes and completed 11 repair projects. If you or someone you know is in need of a home repair, please visit our website- <https://wchabitat.org/what-we-do/home-repair-program.html> or call the office, 419.481.8100. You can also help to support home repair projects by volunteering or donating today!
